GENERAL INFORMATION

SAFETY TRAINING & EVALUATION PROCESS (STEP)

Established in 1989 by the ABC National Environment, Health & Safety (EH&S) Committee, the Safety Training and Evaluation Process (STEP) program was developed and written by contractors, for contractors. There is no charge for this service (Unless applying for STEP Platinum, Diamond, or ordering extra certificates) and your responses are strictly confidential. Benefits include an organized approach for analyzing and developing safety and loss prevention programs; a valid, objective method for measuring safety program improvement; and a safety performance recognition useful in business development. **Visit abc.org/step to learn more and to apply.**

ACCREDITED QUALITY CONTRACTOR (AQC)

The Accredited Quality Contractor Program was launched in 1993. It is an accreditation program which publicly recognizes and honors those construction firms which have documented their commitment in 4 key areas of corporate responsibility: Safety (STEP Gold or Platinum required), Employee Benefits, Training, and Community Relations. **Visit <http://www.abc.org/aqc> to learn more and to apply.**
